BRITISH COMPUTER SOCIETY

BCS Oxfordshire Branch Lecture:
How to Solve IT Problems in 97% Less Time

Thursday 22nd January 2009, 7:00pm - 9:30pm

advance7
Defining IT stability,
control & performance

Speaker:
Paul Offord, Development Director, advance7

Location:
Oxford e-Research Centre, 6 Keble Road, Oxford OX1 3QG

ICT Departments are coming under increasing pressure to fix problems quickly and fix them for good. In this presentation the speaker shows how method-based problem diagnosis can find the Root Cause of a problem consistently faster than any other approach.

Tea and Coffee served from 7:00pm

The talk is hosted by the local branch of the British Computer Society. It is free! members and non-members are welcome.
